VOLUNTEER SPOTLIGHT

Jane (Feldman) Zavislan '74 served as president of the Exeter Association of Colorado for 10 years. She is the new president of the class of 1974.

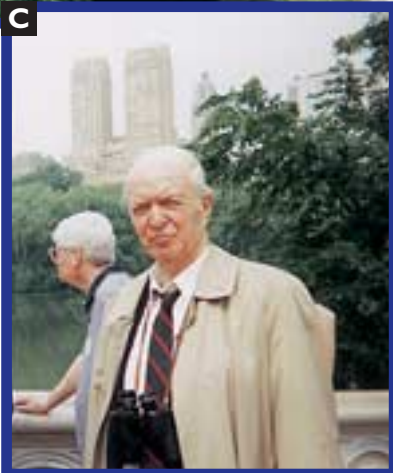

Zavislan '74

"Twelve years ago, I moved to Denver, my husband's hometown, from New York City, where I grew up. Moving to a new city as an adult can make one feel disconnected from one's youth. I had few connections in Denver besides

the parents of a close college friend whose father is also an Exonian. Through them and through volunteering for the local Exeter association, I have truly enjoyed meeting people of all ages with whom I have something in common. I recently became more involved in volunteering for my class and was an attendance chair for our 30th reunion last May. We set an attendance record, but I can't claim that success! Several classmates reached out to a lot of people who had never come back for a reunion before, and that was inspiring to all of us.

"I attended Exeter for two and a half years and loved it—I was definitely a 'poso.' One of the greatest differences that I saw between Exeter and the private school I attended in New York was that many more students were on financial aid, making Exeter truly diverse in a new way. Exeter has done a better job than any school I know at maintaining ethnic and socioeconomic diversity, and that is one reason I think it is so important to keep supporting the school. At my reunion, I was struck by the number of classmates who said that attending Exeter had been the turning point for what became possible in their lives. I hope my involvement with a place that was so important to me helps others recognize how important Exeter was in their own lives, and that they themselves are inspired to help out in some way."
