

Room Inspections:

Academy employees including dormitory faculty and security staff members may enter student rooms for inspection, for health and safety purposes, as well as for disciplinary reasons. Such entry does not in and of itself constitute a room search. Investigation of a room's contents beyond simple entry observation is considered a room search, for which the approval of a dean is required.

To identify and eliminate fire and safety hazards, Academy Safety/Security will make regular inspections of all student rooms. They will note all violations on a "First Notice – Fire Inspection Report" leaving copies with the student, dorm head, and dean of students. Three days will be given to comply before a room is re-inspected. All subsequent inspections will result in confiscation of items in violation. Safety/Security will not be held responsible for any damages that may be sustained when removing such item's.
