

# PHILLIPS EXETER ACADEMY

## Club list 2023-24

### ACADEMY BELLY DANCING SOCIETY

ABS is a dance club where we belly dance to modern songs as well as traditional belly dancing beats. Contrary to the name you definitely do not need abs (nor prior experience) to try out!! If you are interested in trying out, please email one of the co-heads so that we can send more information.

### ACTIVISM IN ART

Activism in Art is a club for artists (both aspiring or experienced - whether you are interested in dance, music, writing, speech, visual arts, or fashion) AND activists. Our goal is to use our artistic talents to raise awareness on topics you care deeply about or would like to speak out for. During the Spring Term, we typically organize a final art show in the Lamont Gallery where all our works are displayed. Each piece will be made around a central theme for the show. We will have many opportunities to share, create, discuss and present art throughout the year.

### AFRICAN STUDENT ASSOCIATION

ASA (African students association) invites those who identify as African, have ties to their African roots and also seek to explore and strengthen their ancestral ties to Africa to join our club. We aim to create an open space for dialogue to grow and strengthen the bond between the African community on campus. Celebrating the richness of culture, language, food, etc. of the different African countries represented on campus.

### AFRO SHADE

Afro Shade is the only Afrobeats club on campus. Afrobeats originated from Ghana, but the style is anchored in West African music, particularly highlife music, American jazz, and funk are also added to the mix. This creates a hybrid sound from across continents. We welcome all experience levels and cultures to immerse themselves in the richness of African dance!

### AFRO-LATINX EXONIAN SOCIETY (ALES)

ALES is a club dedicated to discussions about Black and Latinx history, issues, and culture. Everyone (regardless of racial identity) is welcome to join us for good fun and great conversations! In addition to discussions, you can also expect to learn more about advocacy and how to transform your passion for these issues into action. We are also proud to be a space for Black and Latinx students to heal, find support, and connect with one another.

**ANIME EXETER**

Anime Club meets weekly. Come in to watch new genres and diversify your palette, as well as to join a welcoming and close-knit community. We will host casual events such as anime themed cookie decorating, sticker making, "Guess the Anime Song" tournaments, and anime watch parties! However, anime is far from perfect. As a club, we recognize that there are many underlying messages and depictions of characters in Japanese animation that are inherently discriminatory. We think it is extremely important to address these issues, and will host discussions throughout the year where people can express their feelings and engage in constructively criticizing said shows.

**ARCHAEOLOGY CLUB**

If you like spending time with your friends and the coolest advisor while learning about the rich background between the cultural objects you see around us, then Archaeology Club is the place for you! Each meeting, we will discuss the process of archaeology and eventually get some hands-on experience in this field. The Archaeology Club is a club for all. You don't have to be a world-class archaeologist (even though our advisor is) or Indiana Jones to come to our meetings. Everyone of all interest levels and experience is welcome to join us! Put on your gloves and boots and let's find some fragments of history! Do you dig it?

**ARCHITECTURE CLUB**

We're the coheads of the Architecture Club! Our club advisor is Ms. Taylor, the campus Architect. As one of the oldest preparatory schools in America, our school has amassed a great number of resources as well as an extensive history. During our club meetings, we will learn about the architecture occupation, get hands-on experience with practicing architects, and provide input about what we'd like to see in future buildings.

**ART CLUB**

Welcome to Exeter's Visual Art Club! Here is a community for art enthusiasts (anyone pumped about creating) to gather and continue their art learning journey. We aim to provide every resource to pursue or begin visual arts including the space, time, materials, and art theory education.

**ART HISTORY CLUB**

**A(RT) : MORE POSSIBILITIES IN STEM**

A(rt): More Possibilities in STEM is a club dedicated to exploring and recognizing the 'A' in STEM as a vital part of this rising field. Through a guest speaker, discussion, and activity-oriented club, our goal is to meet people who are experts in their STEAM-related careers and make lifelong connections. Some of the topics we discuss are the importance of STEAM in one's academic and professional lives, AI's rise in fashion, UI/UX design, architecture and structural engineering, and exploring non-profits and businesses related to STEAM. As guest speakers, we will have a UI/UX designer, a structural engineer, and business and non-profit founders come in to share their message and stories. Anyone and everyone are welcome!

**ASIAN VOICES**

Asian Voices is a community for all Asian-identifying students! This term, we'll be alternating between discussion meetings and some casual, fun opportunities to get to know each other.

**ASSOCIATION OF LOW INCOME EXONIANS (ALIE)**

ALIE, the Association of Low-Income Exonians, is a club dedicated to bettering the lives of Low-Income students at Exeter. We host our meetings to allow these students to share their experiences and learn how best to navigate life at a wealthy place like Exeter. This includes everything from social life to assistance programs to making connections with the faculty on campus that can help make the Exeter experience easier for Low-Income students. (This is an affinity group)

**ASTRONOMY CLUB**

Astronomy Club is an academic, science-focused group that promotes the study and interaction with all things related to the science of astronomy, including observing, instrumentation, astrophysics, and cosmology concepts.

**ATHLETES FOR RACIAL JUSTICE**

ARJ (Athletes for Racial Justice) invites all athletes of color to an affinity space where we will hold discussions and fun activities around combatting racial injustice in sports. We aim to create an open space for conversation while building a community for athletes on campus.

**BADMINTON CLUB**

Hi guys! Welcome to the Exeter badminton club! We are a group of athletes that love to play the game of badminton and would like to spread our knowledge about it! Come to learn from a top US player or have fun with your friends! We are low commitment, no experience necessary, and you may get addicted! We also play tournaments around New England (last year we went to Westborough, Mass) and competed against other public/private high schools, if you are interested too!

**BAKING CLUB**

We bake any culinary treats you can imagine. Send in a recommendation and we'll get to baking!

**BASHA****BEAT OF ASIA (BOA)**

Beat of Asia - We are a dance group dedicated to learning/performing choreography by East Asian dancers and/or to music by East Asian artists. We welcome dancers of all levels and from all backgrounds!

**BIG RED ZONE**

Big Red Zone (BRZ) is an Instagram account and club that works exclusively with the athletics program to grow spirit around our sports games! We spread awareness of games and occasionally will theme a game. Join our email list for updates about games, themes, and more!!

**BIOLOGY CLUB**

Biology Club is a community of students interested in the scientific study of life. In our club, students engage in compelling research projects, learn from distinguished researchers across many biological fields, and hold thought-provoking discussions. For fall term, we are scheduling webinars with professionals making breakthroughs in COVID-19 research and our own amazing biology faculty. We also host the USA Bio Olympiad (USABO) competition.

**BIRD WATCHING CLUB**

In Bird watching club, we will take walks in the surrounding woods and schedule Zoom meetings with ornithologists. Bird watching club is an excellent place to get out in nature and learn more about the birds native to Exeter.

**BLACK STUDENTS OF EXCELLENCE****BOB ROSS BREAKFAST CLUB**

Come paint Bob Ross paintings and eat pancakes with us!

**BUDDHIST MEDITATION**

Buddhist Meditation club meets every Friday giving a chance for students to go through a guided meditation and unwind to bring the week to a close. Buddhist Meditation is a great way to become more aware of the world around us and is welcome to people of all religions. After meditations, we gather together to have tea and talk about how the meditation went, life, and whatever may be happening in the world.

**CATHOLIC EXONIANS**

Catholic Exonians is a group of students interested in learning about Catholicism and growing in their faith. We meet weekly at 9 AM on Sundays over breakfast to discuss the faith, Church history, theology, and Scripture. When we are able to and the health conditions permit, we will also attend Mass together. The club can also help students seeking confirmation at Exeter. All are welcome!

**CHEMISTRY CLUB**

Chemistry Club explores how microscopic processes shape the world around us. Through labs and discussions, we look at the chemistry behind industrial processes, natural phenomena, and various properties of materials. Whether you're a pyrotechnic or not, we look forward to having you join us.

**CHESS CLUB**

Chess club meets Fridays nights, and anyone (regardless of experience) is free to drop in and play. We also attend multiple tournaments including Nationals and occasionally have special events (like a GM simul).

**CHINESE LANGUAGE SOCIETY**

Chinese is known on the US department of state language scale as the hardest language to learn. Often times, just language instruction is not enough to reach fluency. For dedicated and passionate Mandarin Chinese Language learners, the Chinese Language Society will supplement in-class instruction with fun and engaging competitions through written and spoken Mandarin.

The Chinese Language Society will allow Chinese students and speakers alike to practice their Mandarin Chinese outside of a classroom setting and work on their public speaking skills. In addition to speaking competitions, club members are encouraged to participate in essay writing competitions

**CHINESE STUDENT ORGANIZATION (CSO)**

欢迎来到 CSO! Chinese Student Organization is a place for Chinese students to come together and build community. We celebrate holidays together, host activities like hot pot dinners and field trips to Andover, and have fun.

**CHRISTIAN FELLOWSHIP****CLASSICAL-ORCHESTRAL DEDICATED ACTIVITIES (CODA)**

If you want to listen to and learn more about classical music, join CODA club! We will listen to and discuss composers such as Beethoven, Chopin, and Ravel, and play games such as “name that tune” or “finish the melody”! Possible conversations include discussing how and why music makes us feel, and the pros and cons of different instruments. Join us to gain new and exciting musical perspectives! No experience needed!

**COSPLAY AND COSTUME CLUB**

In this club, we explore the art of cosplay and costume building. We will start with small projects like prop making and how to sew to creating a full costume of your design.

**CRICKET CLUB**

Welcome to PEA Cricket Club! Dive into the world of cricket with us – no experience or skills needed, just bring a positive attitude and maybe a friend or two. We'll teach you the ropes, watch epic cricket moments, and even play some friendly matches. It's all about having a blast and making new friends, so swing by and let's hit it a six!

**DANIEL WEBSTER DEBATE SOCIETY**

The Daniel Webster Debate Society (DWDS) is the oldest secondary school debate team in the United States, dating back to 1807. We focus on parliamentary debate, but debaters of all experience levels and backgrounds are welcome. A parliamentary debate round consists of two teams of two debaters attempting to convince a judge that their arguments are stronger than their opponents. Each person gives 1 to 2 speeches ranging from 3 to 8 minutes. Parliamentary debate focuses on logic, creativity, persuasive speaking style, and knowledge of current events. Outside of improving your argumentative skills, participating in DWDS will allow you to join a community of passionate, intellectually curious debaters. We are one of the largest and most prominent clubs on campus, and we welcome all students, regardless of skill level.

**DEMOCRACY OF SOUND (EXETER)**

Democracy of Sound (Exeter), or DOS(e), uses sound, art, design, and poetry to create installations and experiences that activate spaces on campus. All ideas are welcome!

**DEMOCRATIC CLUB****DIMENSIONS**

Dimensions is a contemporary dance club.

**DISCUSSION AND STUDY OF CULTURE AND MEDIA**

We plan to read articles and analyses of art in all mediums and become familiar with the works of a variety of artists. Attempt to learn different styles of criticism and analysis to deepen artistic experience and use it in conversation. All art and media are on the table for discussion, regardless of style, medium, or influence.

**Example of topics of discussion:** artistic movements, pop vs high art, classical art, styles of interpretation and much more.

This club is unique as it allows students to gain more knowledge about art and skill in interpretation through discussion. It will aim to help students become more familiar with the interpretive side of art and culture, rather than pursuing their own creative expression.

**DJ CLUB**

The DJ Club is a place where any DJ of any level of expertise can come in and share their sets, techniques that they have learned, and just have fun listening to music and mixing away. If possible, we could also DJ for school dances and other events.

**DON AT PEA****DRAMAT**

Welcome to DRAMAT! We are the student-run theatre club on campus, with the goal to make theatre accessible to every student! Join DRAMAT to act, direct, or support your friends from the audience. Joining the email list will keep you updated with important information such as audition slots, director applications, and show times!

**ÉCHAPPÉ**

Échappé is the school's ballet club!! We offer an opportunity for students to take weekly ballet classes, learn variations, and perform classical choreography!

**ELECTRONIC MUSIC CLUB**

Electronic Music Club is Exeter's extracurricular hub for electronic music production and music technology. The club is open to members of all experience levels, whether you are an avid producer of EDM, rap, or dubstep, or you just enjoy listening and learning about music. You'll be introduced to the power of digital audio workstations and hardware synthesizers, creating everything from rap beats to full tracks and remixes as you explore the many sub-genres of modern electronic music.

**ENGINEERING CLUB**

Engineering Club is a great environment for curious newcomers and seasoned engineers alike! Come use the state-of-the-art Design Lab to design, prototype, and fabricate hands-on, student led projects. We brainstorm, design, prototype and fabricate at least one project every year. Completing whatever thing we build is only one part of the process, however. Engineering Club is a learning oriented club, and we aim to pick projects that introduce us to new concepts as we work. Club members specializing in different types of engineering, design, etc. teach and learn from their peers in an informal, hands-on environment. Engineering club is great for Exonians who are looking to use the Design Lab but hesitant to commit to some of the more time consuming and competitive clubs that share the space. No previous experience is required. There are plenty of ways to get involved if our meeting time doesn't work for you.

**ENTREPRENEURSHIP CLUB**

Launch your own startup! Become an entrepreneur! We will help you create your own business, with the chance to pitch at competitive startup contests like the Diamond Challenge and the Conrad Spirit of Innovation. With training and resources about marketing, finance, pricing, and more, we will teach you to be an entrepreneur! (No experience is required.)

**ENVIRONMENTAL ACTION COMMITTEE**

The Environmental Action Committee is a club that works on projects to make our campus and wider community more aware of climate solutions and tries to keep Exeter sustainably minded. In the past we have brought terracycling to campus and worked with the PEA bookstore to promote sustainable products. Although we will be meeting virtually this term, we are still hoping to continue our work to the best of our ability. This fall we are planning to promote reusable sporks on campus to limit plastic waste from to-go meals and increase our online presence by making a website to help educate our classmates about climate issues.

**ENVIRONMENTAL PROCTORS (E-PROCTORS)**

E-Proctors are advocates for sustainable living on campus. Other than inspiring their dormmates to recycle and conserve resources, E-Proctors implement and are responsible for environmental projects in the dorms, like composting. The ideal E-Proctors is proactive and committed to making Exeter a more sustainable community.

**ETHICS FORUM**

Ethics Forum is a club dedicated to exploring all sorts of modern ethical issues in Harkness-style conversations. We will use our time to dive right into case studies about ethical consumerism, research, government, and just about every other area you can think of.

**EXETER ASSOCIATION OF ROCK (EAR)**

EAR is Exeter's coolest rock/pop performance club! Form your own band and rehearse for our concerts (in the past these have been coffeehouses in grill, Assemblies, after E/a pep rally, etc!) There are no weekly meetings (everything from making bands to rehearsing is student-directed!) so it is really important that you sign up for our email list to stay updated on performance opportunities.

**EXETER BOARD GAME ALLIANCE**

Board Game Alliance is an awesome club where we play board games like Carcassonne, Monopoly, beta testing games, Who wants to be a Billionaire, Game of Thrones the Board Game, and so much more. Come to have fun and play games for an hour.

**EXETER BUSINESS CLUB**

Exeter Business Club is a career-technical student organization dedicated to providing our members the opportunity to learn, explore, and experience business and leadership through our various competitions, projects, and networking opportunities. Not only do we hold weekly meetings where we discuss business principles, invite speakers, and prepare for the FBLA and DECA State and National competitions, we also organize interscholastic business conferences, attend collegiate conferences, and visit numerous startups and companies in the Boston area!

**EXETER CLIMATE LOBBY**

Exeter Climate Lobby is a group of Exonians who advocate for strong, equitable climate policy. We attend climate strikes, write to our elected officials, and meet with legislators. If you're concerned about climate change and want to take real ACTION, this is the club for you!

**EXETER COMPUTING CLUB**

Exeter Computing Club (ECC) is Exeter's premier computer science club. We build innovative projects that solve real-world problems and learn about state-of-the-art techniques in fields ranging from machine learning to algorithms. In the past, we've built the Exeter Course Map, and every spring we run an internationally-attended hackathon.

**EXETER CULINARY ASSOCIATION**

If you're looking for a break from d-hall or a place to polish up your culinary skills, come to Cooking Club!

**EXETER DnD CLUB**

Exeter D&D lets students experience the ultimate tabletop role playing game: Dungeons and Dragons. Join us to fight monsters and make friends on epic adventures in our custom-created world—no experience required. Whether you've never played D&D before but always wanted to try it, or you're a veteran who owns all the sourcebooks, this is the club for you!

**EXETER ECONOMICS ASSOCIATION**

Exeter Economics Club is split into a discussion group and a competitive group (ECOMP). The discussion group meets once per week for an hour to look at current events through the lens of economics, emphasizing concepts and real-world impacts. Some topics this term will include the Federal Reserve's response to COVID-19 and the resulting inflation, Evergrande, American trade policy, the Exeter endowment, development economics, and big tech companies. The ECOMP group prepares for end-of-year competitions by learning mathematical models and more advanced economic concepts. We will cover the laws of supply and demand, production, different forms of competition, economic indicators, the business cycle, and economic stabilization. This group will loosely follow the AP Macro/Microeconomics curriculums so you can take those exams as well. We will be discussing material that is assigned in previous classes.

**EXETER FILM CLUB**

We screen great movies on a big screen in the Forum with free snacks. We bring arthouse, independent, classic cult films, and more to you. Join us for a fun night, bring a friend or come alone to enjoy the power of cinema.

**EXETER FISHING CLUB**

This club will focus on getting people out in nature while fishing in the local bodies of water at Exeter. There is a lot of patience required for fishing, which with the help of being out in the environment, can prove to be quite a reflective and therapeutic experience. This club will focus on strengthening the connection Exeter students have for the natural world, each other, and to themselves. Fishing is a great, healthy, and much needed break from Exeter's fast pace and busy lifestyle.

**EXETER IMPROV**

Welcome to Exeter Improv! The only Improv club on campus! We are a relaxed, student-run club where members play a variety of improv-based games and create scenes. There is no experience required to join this club and it is open to all! Join our email list to stay updated. We hope to see you soon!

**EXETER INVESTMENT SOCIETY**

Learn to invest like a pro! Our goal is to make financial education more accessible. We teach fundamental investment concepts such as different types of assets and how to analyze companies, and build off of them throughout the year in a collaborative, large group setting. Throughout the year, we set up multiple (fake money) investment simulators for a fun way to compete amongst the club and participate in REAL TIME TRADING to improve skills! We also complete in the globally renowned Wharton Global High School Investment Challenge. Along with all of this, we will be providing members with multiple opportunities to hear from executives in the field of finance/investment. Welcome to the Exeter Investment Society!

**EXETER JEWISH COMMUNITY**

Almost every Friday night, the Exeter Jewish Community gathers together to light Shabbat candles, bless the wine and challah, sing a few Jewish songs, and then enjoy Shabbat dinner together. The EJC is a diverse, welcoming, “come as you are” kind of group. And Shabbat Dinner is a relaxed, fun, and enjoyable way to end a hectic week at PEA. Everyone is welcome – you can bring a friend or two with you if you like – or come to meet new friends.

**EXETER PINOY SOCIETY**

The Pinoy Society is a club for Filipino and non-Filipino students interested in creating a close community while indulging in Filipino culture, food, movies, and more. The club also takes part in events hosted by the Office of Multicultural Affairs and the Asian Advisory Board.

**EXETER PRIVATE EQUITY AND VENTURE CAPITAL CLUB**

Join the Exeter Private Equity & Venture Capital Club to learn about the growing field of alternative investments. Venture capital represents financing given to start-up companies and small businesses that have the potential to grow, whereas private equity financing represents ownership or an interest in a company that is not publicly listed or traded. We'll discuss what PEVC is, the similarities and differences between them, learn important terminology, practice applying concepts to case studies, and invite guest speakers to share their experiences in this field. This is one of the fastest growing clubs on college campuses today, so come join us.

**EXETER RACING CLUB**

Join us in building a racing kart and competing with it! Test your racing skills on our high-end racing simulator, and enjoy watching the weekly Formula 1 races. Help us modify a Ford Mustang, internally and on the exterior!

**EXETER RESCUE TEAM (LiNK)****EXETER RESEARCH CLUB**

Want to get into research but don't know how? Join Exeter Research Club! We're going to be introducing the scientific method that researchers use to develop research projects. Well also be doing research projects ourselves along with facilitating individual research projects so make sure to join if you're interested in STEM research at all. No experience required at all.

**EXETER ROCKET TEAM**

Exeter Rocket Team is dedicated to educating and inspiring our generation about the future of outer space and how they can be involved in it. We are currently working on building a food computer, investigating conditions needed to grow plants on other planets, and planning to launch our cube satellite to collect raw data from space. We also casually launch rockets. Among other projects, we've created several videos and written a handbook as in-depth resources for students interested in space, all compiled in our website. We also host discussion meetings with scientists, some of which can be found on our YouTube channel along with other interesting videos.

**EXETER SEWING SOCIETY**

Join the Exeter Sewing Society - our Sewing Club! All skill levels are welcome- from beginner to advanced sewers! Learn how to sew, work on a new project or share your newest creations! The Exeter Sewing Society is not only a community but also a workshop to learn and teach sewing skills. The meetings will likely be bi-weekly and we meet in the Goel sewing studio!

**EXETER SOCIALIST UNION**

The mission of the Exeter Socialist Union is to educate our community about political theory, the history of socialism, and the current struggles of the working class. We hold weekly discussions. Our curriculum includes guest speakers, mutual aid opportunities, and interactive workshops. ESU is open to Exonians of all backgrounds and political ideologies. We believe in unity between oppressed groups and plan to collaborate with other Exeter clubs to discuss the intersections of gender, class, race, and the environment.

**EXETER WORKOUT CLUB**

Hello Exeter! We are the Exeter Workout Club, or EWC for short. This term/year, we will be helping you reach your fitness goals, whether it be from the comfort of your home or on Exeter's campus. We will be providing you with a specialized program catered to your specific needs whether that be to lose weight, to stay fit without a gym, etc. Like in the past, we will be holding club meetings but with proper social distancing requirements and a maximum meeting attendance of 10 people.

**EXETERAS****EXIE BLOG**

Created in 2020 during the COVID-19 pandemic, we knew that hearing from each other's experiences was the best way to prepare and bridge the gap between classes. That's why we created Exie Blog, a "run by students, for students" website dedicated to preparing and sharing information with new students. Join us to give advice to new students and create content (like blogs, videos, social media, etc.) to give back!

**EXONIANS AGAINST DOMESTIC VIOLENCE**

We are a club committed to raising awareness about Domestic Violence. In our meetings we plan to educate ourselves and organize events to educate the Exeter Community.

**EXONIANS AGAINST SEXUAL ASSAULT (EASA)**

EASA is a student-led group dedicated to educating students and spreading awareness about issues surrounding sexual assault. In advocating for healthy relationships and habits, we hope to make campus a safe space for everyone. In meetings, we discuss current events from the media, as well as the culture on campus. In addition to discussions, we work with the administration and faculty to better understand our role as peer educators, and together we work to continue conversation within the entire community.

**EXONIANS WITH DISABILITIES ASSOCIATION (EDA)**

Two hundred thirty-seven years. That is how long Exeter students went without having a disabled student group on campus. We were founded five years ago on the principle of making the previously invisible visible. Of making space for disabled students and faculty to find community and thrive. This includes Exonians who are undiagnosed and those with mental illness, learning differences, TBI, chronic illness, and more. We don't need to be silent anymore.

**FANS OF FOOTBALL**

Totally new to Football? Don't know what's going on during E/a Football games? Want to meet other avid Football fans? Everyone is welcome! Meeting every week, we will talk about games from past weeks and future upcoming ones. As the season goes on we will discuss trade rumours, injuries, playoff odds and more. Some fun things that we will also do, mock drafts, fantasy football, playoff predictions, team rankings, positional rankings, etc. This is a low commitment club without any required meetings.

**FEMALES FOR FINANCE****FEMINIST UNION**

Feminist Union discusses topics surrounding feminism and the intersectionality of feminism, providing a safe space for Exonians of all genders to share their thoughts and ideas. We also hold fundraisers throughout the year for organizations upholding women.

**FERMATAS****FIGHT CLUB**

Fight Club is a confidential peer-based grief support group for those who have lost someone special in their lives. We meet weekly, to discuss grief, life, and loss, to just hang out, and to share a meal (once we're able to). There is no obligation to attend -- Fight Club is here to be a community of friends and a support structure to lean on.

**FLOWER ARRANGING CLUB****FUTBOL WATCHERS**

Are you a fan of the Beautiful Game? Do you have a favorite club (preferably Chelsea) and are looking for others who support your club? Are you looking to get into watching soccer? If so, join Fútbol Watchers!! Exeter's discussion club for all things soccer. We'll get together to watch matches, discuss players, and generally have a good time talking about the best sport in the world.

**GAME DEV CLUB**

Whether you're a programming ace, an art designer, a music composer, or just someone who likes video games, Game Dev Club is the club for you! Come join us as we learn about game development, work on small projects, and develop a full-fledged game throughout the year! We welcome everyone with a passion for game design -- no experience necessary.

**GENDER AND SEXUALITY ALLIANCE (GSA)**

A safe space to talk about queerness, culture, gender/sexuality, and allyship. Typically we meet weekly, with a few extra events scattered throughout the year. Students questioning their identity and allies are also encouraged to attend! Often times we play games, discuss current issues, and just hang out. We are also host events on campus, such as last year's art show, ice skating and hot chocolate, and the end of year GSA party!

**GEOGRAPHY CLUB**

The Exeter Geography Club aims to promote a deeper understanding of geography by preparing for interscholastic tournaments, exploring geographic topics, and playing quiz bowl. Check it out if you are interested in the world!

**GEOMETRY CLUB**

Join geometry club to marvel at shapes – from triangles to trochoids! Johannes Kepler insists, “Where there is matter, there is geometry.” Yet Exeter somehow lacked a geometry club until the winter of 2022. We will ponder on puzzles, exchange proofs, build our own beautiful patterns, and share the delight of geometric discovery with fellow Euclideans. Prerequisite: a bit of curiosity.

**GERMAN CLUB**

We meet bi-weekly to discuss contemporary issues in German-speaking countries and learn about German language and culture. We will also watch popular German movies and cook delicious German foods. Feel free to stop by if you need help with homework, are studying for a test, or want to practice speaking German!

**GIRL-POWER (LIFTING)**

Aiming to make the gym less intimidating and create a safe space for all women at Exeter, we welcome members of all experience levels with any gym needs (connecting you to gym buddies, teaching form, providing workout plans, and moral support).

We reserve the fitness center once a week and lead group lifting sessions. In addition to the once-a-week meeting in Downer, we'll host other meetings throughout the week at Ransome so you'll always have lifting buddies, no matter your schedule!

**GIRL TALK: ADVOCACY FOR SELF CARE**

This club is a safe space where Exonian girls can learn from each other but also from themselves by finding value in self-care. We will focus on girls bettering their own selves through meaningful conversations about life at Exeter but also through different self-care practices such as meditation, nail painting, face masks and more. Join if you just want to relax and have some fun!

**GIRLS IN SPORT**

A space for female athletes to come together, support one another, fight for gender equality in sports, and encourage female participation in sports.

**GO CLUB**

The Go Club aims to bring the rich and venerable board game of Go to the Exeter community. We will host Go tournaments and Go learning sessions. Players of all experience levels are welcome!

**HINDU SOCIETY**

Hindu Society is a space for those interested in learning about and/or practicing Hinduism. We will celebrate religious holidays such as Diwali and Holi, and come together as a community. We would love to see you there!

**HISTORY CLUB****HONG KONG SOCIETY**

Hi! We are Hong Kong Society! This club is a great place to meet Exonians from Hong Kong and share HK culture to other interested Exonians. We are open to everyone willing to join! We also plan on watching classic Hong Kong movies, sharing snacks, celebrating cultural holidays, and making MANY Boston trips to eat dim sum and other traditional cuisine. Come join us!

**IMANI**

A co-ed hip-hop dance group where all of the dances are choreographed by our members. Auditions are held every term and there is no experience necessary. We perform at assemblies and pep rallies!

**IN ESSENCE**

One of Exeter's all-girls acapella groups! We typically sing fun pop songs, classic rock, or any good song the group wants to do. We'd love to have you audition!

**INMOTION**

Exeter's co-ed no-audition dance group that focuses on choreography inspired by hip-hop, funk, and lyrical among other styles. Previous performances include choreography from studios like The Kinjaz Dojo and Millenium Dance Studios, and artists such as Brian Puspos, Sorah Yang, Alexander Chung, and more. All levels of dance experience are welcome. Join us for a fun jam session!

**INDIGENOUS RECONCILIATION CLUB**

Join us in fostering strong relationships and collaboration with indigenous leaders, raising awareness about indigenous injustice, celebrating native cultures, and working to decolonize our community. Let's learn together and improve our community

**INTERNATIONAL STUDENT ALLIANCE**

The International Student Alliance is an affinity group for international students at the Academy. We aim to bring together the different cultures and backgrounds of students to celebrate our diversity. During club meetings, we will discuss how to process and take part in conversations regarding current events going on in America as international students, while being culturally aware and inclusive.

**JAPANESE AMERICAN SOCIETY (JAS)**

A cultural club for students of Japanese heritage or students interested in Japanese culture. Join us weekly for dinner, snacks, and good company. Join us for termly events for (significantly) better dinner, better snacks, and same company.

**KE KONTAN**

Ké Kontan is one of six a cappella clubs on campus. Our name means "happy hearts" in Haitian Creole and we are a SATB group exploring various genres! Past songs have included 715 CREEKS by Bon Iver and White Winter Hymnal by Fleet Foxes. Come audition at the beginning of the year!

**KIRTLAND SOCIETY**

**KOREAN LANGUAGE AND CULTURE CLUB**

Welcome to Exeter Korean Language and Culture Club! The most important purpose of this club is to spread the idea and knowledge of the Korean Language. How to read and write, to understand the language. We will also look into Korean films and shows, datas to analyze and understand the culture. Korean is known as one of the hardest languages to learn. Many high school institutions do not even offer the course, reducing the possibility to reach fluency for many foreign students. However, as the Korean wave has become an influential global phenomenon since the beginning of 21st century, intense fandom culture inspired and motivated global populations to learn more about the culture and language. Exeter Korean Language and Culture Club will be available for more diverse students to learn the actual Korean language and look at films and or presentations about its culture. We have seen and encountered many Exonians, mostly non-Korean Exonians, who expressed their interests in learning the Korean language (by influence of K-pop, etc). We felt that there isn't a place where these devoted students to have the opportunity to learn the Korean language. This club will best be a place to mutually collaborate to gain what you desire. It will be a very low commitment club.

**KOREAN SOCIETY**

Korean Society is a great place to meet Korean Exonians and Exonians interested in Korean culture; we are open to all! We meet once a week over dinner (super low commitment). Once a term, we go to Sura, a Korean-BBQ restaurant in Boston, and eat A LOT of food.

**LA ALIANZA LATINA****LEGAL SOCIETY**

Legal Society is a discussion group about the law. In this club, you'll look at a range of concepts, cases, schools of legal thought, as well as some scholarship. We will also hear from some guest speakers.

**LEGO CLUB**

Lego Club is a group of like-minded individuals who are inspired to create with Lego. Participants in this club will learn how to use simple software to design original Lego creations that they will then build. Through a series of individual and group activities, students will create and build their own Lego designs, as well as collaborate on designing and building a larger creation, such as a replica of the Academy Building.

**LIBER**

Liber is a student-run publication which aims to breathe life into ancient/classical literature, culture, history, languages, and art. The Latin words *liber* and *liber*, homographs, mean “book” (noun) and “free” (adjective), respectively. As its name denotes, Liber is a book consisting of the free expressions of our ideas, opinions, and feelings in English, Latin, Ancient Greek, or any other language. Articles cover a wide range of topics: Archaeology, History, Literature, Beyond Classics, and Exonians. Through Liber, we hope to explore classical antiquity and acknowledge its indelible imprint on our world today.

**LINGUISTICS SOCIETY**

Welcome to Linguistics Society, where we delve deep into the mysteries of human communication, studying sound formation, cryptology, ancient language reconstruction, and much much more. Are programming languages real languages? Can animals understand languages? In what ways and how quickly do languages change? How do you even begin to read a language if neither the writing system nor the language itself is familiar to you? All these questions and more will be answered. Join if you’re passionate about modern languages, or want to learn how to decipher like Indiana Jones, or want to flex your logic and computational reasoning skills. Each year, we participate in NACLO, a computational linguistics competition that requires no previous knowledge. We also work on our own constructed language or conlang which, after learning the basic building blocks of a language, we create together during our club meetings.

**LIONETTES DANCE TEAM**

Lionettes is a Rockettes/jazz/commercial modern-inspired dance group.

**MAGIC THE GATHERING CLUB**

We play weekly Magic: the Gathering tournaments in all formats: limited, modern, standard, etc. Competitive, casual, and new players are all welcome!

**MATH CLUB**

Come to Math Club to explore mathematical mysteries and learn from fellow students, teachers, and visiting mathematicians. We’ll prepare for competitions like AMC, AIME, and USA(J)MO. We also run the Exeter Math Club Competition, which is an annual contest for middle schoolers hosted entirely by students on campus in February.

**MATTER MAGAZINE**

Come join MATTER Magazine, Exeter's sole STEM student publication! We have been dedicated to making science more relevant and accessible to the Exeter community since 2009. Join if you are interested in STEM, writing, layout design or art! You'll learn to do research, write articles, design issues, and create graphics! No experience required. Past topics we've covered include climate change, artificial intelligence and pandemics.

**MEAT EATERS CLUB****MEDICAL ANTHROPOLOGY CLUB**

In recent years on campus, there has been growing interest in the STEM fields, and within that science category, many students have taken an interest in medical science. The goal for this club is to educate students on medical topics, and help break down a stigma and get awareness for the people in health care that so often go overlooked. This is a low-key club based mostly on dinner discussions and an occasional guest speaker.

**MIDDLE EASTERN AND NORTH AFRICAN SOCIETY**

Middle Eastern and North African Society is an affinity club for MENA-identifying students. During our weekly club meetings, we will come together to share food, participate in board games like Backgammon or Okey, and promote conversation on a variety of topics relating to the Middle East and North Africa. We hope to see you there!

## **MOCK TRIAL CLUB**

The Phillips Exeter Academy's Mock Trial Team was founded in 2011. Since then the team has claimed seventeen individual titles, five all-around state titles, and a top-ten spot at the National High School Mock Trial Championship. Every season, the club is composed of roughly 30 members, split into three different teams. In the teams, students work together, playing both lawyer and witness roles. Lawyers work on presenting opening statements and cross examinations during trials whereas witnesses work on developing their character in direct examinations. Throughout the year, all club members collaborate to analyze several different cases for the three tournaments we are typically involved in: the Yale Bulldog tournament, BG, and states. Members become familiar with courtroom presentation, public speaking, and develop strong bonds with others. As one of our past coheads put it, "When I first started Mock Trial, I considered quitting. The material was dense, the objections were confusing, and my understanding was foggy. But I stuck with it. And I'm so glad I did. Mock Trial has truly been one of the most positive influences on my life during my time at Exeter. My teammates have become some of my greatest friends, and the cases have become some of my favorite problems to work through. I admit the cases are difficult, the hours are long, but I promise, if you give it a chance, Mock Trial can, and will, change your life." — Samuel Farnsworth.

## **MODEL UNITED NATIONS**

Model United Nations is a simulation of the real-life United Nations designed to teach its members about speaking skills, global policymaking, and effective persuasion. We host PEAMUN, our flagship annual conference hosted on-campus, and also attend several of the most competitive conferences in the country such as Harvard MUN, Dartmouth MUN, Boston University MUN, and Cornell MUN. Our delegates consistently win many awards and recognitions, including several Best and Outstanding Delegates at Harvard Model UN as well as Best Small Delegation at Dartmouth Model UN.

## **MOUNTAIN BIKING CLUB**

## **MULTIRACIAL EXONIAN SOCIETY (MRES)**

This club is a space to explore the accomplishments and struggles of multiracial people in the past and present, as well as explore our own identities and experiences as multiracial Exonians. We are not an affinity group, so everyone, of all different racial identities, is welcome to come!

**MUSICAL THEATER CLUB**

Musical theatre club is a judgment-free space where all the musical geeks meet up and be passionate about musical theatre together! We will meet bi-weekly. Normally we will watch musical theatre clips, socialize, do small skits together, and play trivia games. We will also occasionally host events like Karaoke nights and potentially host one or two trips to local theatre to view musicals during the school year.

**MUSLIM STUDENT ASSOCIATION**

Hello and welcome to the Muslim Student Association! We are a community for Muslims on campus to connect, worship, and relax in a safe space! Come join us on Fridays for Jummah prayer - lunch will be provided! We also hold various community events throughout the year as well as Ramadan and Eid activities. We're very excited to have you join us this year!

**MYCOLOGY CLUB**

In Mycology Club, we celebrate and educate on ALL THINGS FUNGI! We combine biology, sustainability, folklore, and walks in nature for an experience that is sure to bring members closer to mushrooms, the earth, and each other.

**NATURAL HISTORY: A KEY TO THE FUTURE OF LIFE**

Natural history is a discipline of science that is often overlooked. The 2020s is an era significant for two factors: the imploration of extraterrestrial life and persisting climate change. The study of the path that life has hitherto walked can provide great insights for life's future: how did life begin in a place previously deemed uninhabitable, and how did life persist through its greatest cataclysmic events? In this club, we will not only be studying and familiarizing ourselves with a summary and major events in the history of life on Earth, but we will also explore how certain concepts can be applied to the challenges of today. How have interglacial periods posed challenges for life, and how did life overcome them? Looking at highly carbonated historical periods such as the Carboniferous and the early Triassic, how can the severity and possible solutions to today's climate crisis be hypothesized? With the aid of human technology, can the developmental process of complex life be replicated on potential life-bearing destinations such as Titan or Europa to establish a basis for a sustainable ecosystem? Our club will be answering such questions through group discussions and other forms of exploration. We may also invite guest speakers and even obtain opportunities of study to compare the past to the modern world or about similarities between potential extraterrestrial life destinations and the Siderian Earth undergoing rapid oxygenation and eukaryotic development. We also aspire to share our ideals regarding natural history with the student body through writing in the Exonian and other means.

**NEUROSCIENCE CLUB**

Come to Neuroscience Club for a welcoming environment where we talk about the latest and greatest in the field. We plan to include fun activities such as brain dissections, discussions about current research, brain facts presentations, guest speakers events, field trips to visit labs, and to attend the Brain Bee competition! We have a goal to potentially have research published in a peer-reviewed journal as well! There is no prior neuroscience experience required. Come for a fun time!

**NIFTY THRIFTY**

**OCEAN AWARENESS AND ACTION CLUB**

Welcome! Here in O2AC, PEA's ocean club, we work to advocate and raise awareness on ocean issues in our community and beyond through games, film showings, petition signings, community engagement projects at the Children's Center, and more. In the past, we have won the regional competition of the National Ocean Sciences Bowl, planned PEA's first Earth Day student arts exhibition, and designed a digital collage on [theoceantlink.com](http://theoceantlink.com). If you want to take action, have fun, and learn something new about world oceans each week, you've come to the right place!

**ORIGAMI CLUB**

Hi! We are people who enjoy folding origami! In the past, we did projects like figures, tessellations, modular origami, and even more! We even had a field trip and went to MIT's origami convention. This year, we want to continue our origami adventure as well as going into more topics like designing origami and CP (crease patterns)! We welcome folders and enthusiasts from all levels; please join us as we sail our boat into the unknown!

**OUTING CLUB**

Greetings Adventurers! Do you love hiking, camping, building campfires, and exploring trails and mountains ridges? Do you want to experience going out beyond the Exeter bubble during the school year? If so, the Outing Club provides ample opportunity to do so; a couple of times every term, we travel across New Hampshire, mostly to the White Mountains, and embark on hiking trips with a small group of students. In the past, we have done day trips to Mount Monadnock and Franconia Ridge, camped by Crawford Notch overnight to scale Mount Washington the following day, and stayed in a cabin by Lonesome Lake in the winter to go sledding and snow-shoeing, and to bask in a stove heated hot-tub!

**OUTKAST**

OutKast is the all-male step team at PEA. Founded over 20 years ago, OutKast is the first and longest running step team. Step is a form of dance culturally tied to the black community. Brought to the Americas through the slave trade, step has become popularized with black fraternities and sororities across the United States. Step is the mix of both dance and music, where one's body becomes the instrument. OutKast performances are loud, energetic, and the sight for any and all school performing events.

**PEADQUACS**

PEADQUACS is Exeter's oldest A Cappella group, est. 1952. We are co-ed and sing SATB arrangements. We have many opportunities during the year for performances, but our biggest concert is the A Cappella Assembly in the spring. We learn and sing a variety of different styles of music, selected by the members. PEADs does Valentine's Day Serenades in the winter, where we get requests to sing in certain dorms and have a whole night of performances across campus. We would love to have people from any type of musical background, whether you've been singing your whole life or just interested in trying it out. Come to A Cappella auditions to learn more.

**PEAN**

Welcome to PEAN, Exeter's yearbook committee! PEAN is open to anyone and everyone; experience with InDesign and Photoshop is amazing but not required by any means (we will teach you!). We are a community of artists who think deeply about how meaning emerges from design, and you can get involved in a way that aligns with YOUR interests. If you love photography, you can become a PEAN photographer (we have cameras available to lend!). If you love graphic design and organizing photos, you can become an Ads, Layout, Sports or Senior Pages associate and help design pages in each of these sections. We also need artists to draw sketches to be incorporated into the book, and business managers who deal with logistics. All of your efforts will go toward building a memorable yearbook that will go out to the entire Exeter community and be perused for years and years to come. PEAN represents the themes, people, and events of the year, so we need YOUR voice to make it complete.

**PEER TUTORING**

Peer Tutoring is a place for Exonians to give and receive help from each other in assignments and subjects!. Come join, whether you're looking to tutor or be tutored! We hope to support as many students as we can -- if you're interested in tutoring hours earlier in the morning, please reach out!

**PENDULUM**

Pendulum is Exeter's premiere visual arts and creative writing club! We meet over breakfast to discuss good reads, cool art we've seen, and plan an annual magazine featuring the best of Exeter's creatives. Come to try out art/writing for the first time, get feedback and hear about opportunities from experienced editors, and make new friends!

**PHILOSOPHY CLUB**

Philosophy Club is a casual discussion-oriented club focused on the interpretation and discovery of philosophical topics. Ranging from modern ethical dilemmas to ancient doctrines, we'll unpack and discuss them all. Be prepared to question, to think, to believe, to trust, and to philosophize!

**PHOTOGRAPHY CLUB**

Welcome to Exeter Photography Club! We're really excited to run the club this year! No need to worry if you don't have any gear, you're welcome to use your phone camera, model, or simply tag along. We looking forward to seeing you there!

**PHYSICS CLUB**

Come to Physics Club to learn about the nature of our world. We'll have discussions about a variety of topics and prepare for competitions like F=ma and USAYPT with students across the globe.

**PICKLEBALL PROS**

In this club everything will be centered around pickleball! At the beginning of the year, our meeting would probably be based on teaching the rules and basics of pickle ball. By the end of the year we would plan to have a tournament in which all members and even faculty can play in.

**POMS**

POMS is Exeter's cheerleading group! We boost school spirit while having fun, performing at pep rallies and Exeter vs Andover football and basketball half-times. We welcome everyone to try out!

**POWERLIFTING CLUB**

Whether you have been lifting for years or have never touched a barbell in your life if you are interested in improving yourself through weight-training, this is the club for you. Powerlifting club works with its members on an individual basis and can give whatever you want to get out of it. Here are a few examples of what you may get out of your experience: learning how to safely and effectively perform lifts, creating detailed personal workout programs, meeting new friends/ lifting buddies, tracking progress and being held accountable, and finding a supportive community that celebrates the success of its members at every stage of the lifting journey.

**PRECISION**

All female Step Team

**PRO-CHOICE CLUB**

With recent attacks on women's reproductive rights, we feel it is more pressing than ever to create a space on campus where we can take tangible action, and where students can talk about their frustrations. We are going to focus on two main aspects within the wide agenda of this club. The first is going to be educational and the other is going to be surrounding activism. We hope to organize fundraising for women's reproductive rights/justice organizations and a long-term goal of ours is to eventually attend women's marches and in-person protests. We are excited to be starting this club! You do not have to identify as female to join us, just bring your passion for reproductive rights and justice!

**PSYCHOLOGY CLUB**

Come join PAN! We are a low-commitment club dedicated to learning about and discussing psychology and neuroscience. We cover whichever topics interest you, from how neurons communicate to how social biases are perpetuated. We also have a few projects planned which you can take part in!

**REEL LIFE PRODUCTIONS (RLP)**

Reel Life Productions (RLP) is PEA's filmmaking club. We work on projects ranging from short films to coverage of school wide events. Club members will have access to all the various film equipment and editing software the Academy offers. This year, we are planning to host occasional, socially-distanced movie screenings for the entire community. If you are interested in filming, acting, directing, film editing, or scriptwriting, we encourage you to join us.

**REPUBLICAN CLUB**

Republican Club is an open space for respectful political debate on campus. The club is accepting of all viewpoints and welcomes anyone seeking some great debate. Whether you have some fierce opinions, or would simply like to drop by to listen, Republican Club would love to have you!

**RHYTHMICS**

**ROBOTICS CLUB**

In Robotics Club, students combine fundamental design skills through collaboration and innovation, merging science and engineering with business and entrepreneurship. Learning labs and hands-on workshops serve to introduce important concepts to beginners and keep experienced members sharp. Trips to tech companies and collaborations with professionals enable members to learn from the best. The club also offers three competitive teams at all skill levels, ranging from our prestigious championship-winning FIRST Tech Challenge team (<https://ftcvertex.com/>) to our MATE and SeaPerch underwater robotics teams. Taking advantage of a state-of-the-art design lab equipped with tools like laser cutters, angle grinders, blowtorches, and other industrial shop equipment, the possibilities are endless. No experience is required—there's a place for everyone, even those that don't consider themselves STEM enthusiasts—so come join us!

**ROCK CLIMBING CLUB**

Want to get better at rock climbing? Never climbed before? Thought the movie Free Solo was cool? This club is for you! We take trips either to the climbing gym MetroRock in Newburyport or outside to boulder in Pawtuckaway. We also have a new climbing wall open in Love Gym for more frequent weekly meetings! All harnesses and shoes are included!

**RUSSIAN CLUB**

In this club, we will cook Russian food, watch movies and read stories, discuss Russian culture, and practice speaking Russian.

**SAILING CLUB****SALAAM**

Salaam Club is an inclusive cultural space, open to women-identifying Exonians from Muslim communities and/or backgrounds. We cook and eat amazing halal food together from around the globe. Salaam meets biweekly on Sundays and weekly for iftars during Ramadan. Questions?

**SALSA DANCE CLUB**

Have you ever wondered how to dance salsa? Do you have two left feet? Come to Salsa Club! No prior experience needed! We will teach you everything you need to know about salsa, and other Latin dances.

**SANS HOMMES**

**SCIENCE BOWL**

Science Bowl is a trivia style competition played between five-person teams that quizzes subjects including math, physics, chemistry, biology, and earth and space science. Last year, we placed top 16 at Nationals and 1st and 2nd place at the New England regional competition. If you're interested in learning about science, or talented in any of the featured subjects, we hope you'll join us.

**SCIENCE OLYMPIAD**

Science Olympiad is an American team competition in which students compete in 23 events pertaining to various scientific disciplines, including earth science, biology, chemistry, physics, and engineering. In the past few years, the Exeter Science Olympiad has excelled in invitationals at Harvard, Dartmouth, and Brown, as well as the New Hampshire state competition.

**SCREENWRITING CLUB****SHAKTI**

We learn and perform Bollywood dance choreographies at events like dance assembly, Asian Night Market, hip-hop showcase, and more! No experience or audition required.

**SIGN LANGUAGE CLUB**

Sign Language Club is a welcoming, inclusive space for students who are interested in picking up American sign language and learning about the disabled communities who use it. No prior experience necessary—the point of the club is to learn together! We are a club dedicated to amplifying disabled voices and including both language and culture in our learning. Join us for fun language study, brilliant speakers, and snacks

**SKI CLUB**

The Ski Club provides the student body a fun opportunity to ski with your friends! We are currently planning multiple trips throughout the year. No prior experience is required, but is preferred.

**SMART CITIES**

As cities struggle to keep up with the rise of urban populations around the world, technology is being harnessed to manage rapid urbanization by creating smarter cities. In this club, we will go over emerging innovations that are becoming popular in the smart city sector (for example, smart trash collection and officer wearables.) We are a club dedicated to exploring and implementing innovative solutions to enhance daily life through technology to create a more equitable and environmentally conscious future.

**SOCIAL DANCE CLUB****STANDUP EXETER CLUB**

A club featuring the funniest students at Exeter. At the end of each term, we host a massive show. And yes, we have samosas.

**STUDENT ADMISSIONS AMBASSADOR PROGRAM (SAAP)**

The Student Admissions Ambassador Program is an exciting opportunity for Phillips Exeter students to represent and promote Exeter to prospective students and their families. Student Ambassadors will be able to help prospective students and their families gain a better sense of our inclusive community and the incredible opportunities available to students both in and outside of the classroom. Student Ambassadors will be able to share their personal experiences and information about campus life, history, traditions and achievements of the Academy through:  
-Conducting campus virtual tours    -Participating in virtual recruitment events    -Supporting the admissions social media efforts    -Connecting with prospective students via email and postcard writing.

Please note that these are just a few of the ways we plan to engage prospective students and their families. As we continue to build our virtual engagement opportunities, we will be seeking input and support from our student ambassadors. Student Ambassadors play a critical role in helping a prospective student identify which school is the best fit as they navigate the high school process.

**STUDENT COUNCIL**

**STUDENT FRANCOPHONIE COALITION**

The Student Francophonie Coalition is a group that explores not only the French language, but also the remarkably diverse cultures of many different Francophone countries along with that of Franco-Americans. During our weekly meetings, we will offer events such as watching Francophone films, eating foods from Francophone countries, and just having a great time.

**STUDENTS OF CARIBBEAN AND AFRICAN ANCESTRY**

Our club's primary purpose is to cook dishes from Caribbean and African cultures.

**SUBCONTINENT SOCIETY**

Subcontinent Society is a cultural club for those from South Asia (India, Pakistan, Sri Lanka, Nepal, Bangladesh, etc.) or those interested in South Asian culture. Join us as we watch movies, eat samosas, celebrate cultural holidays, and meet new people!

**SUNRISE EXETER**

The Sunrise Movement is a national climate justice organization, building an army of young people to create millions of sustainable jobs and stop climate change. The movement is connected to a web of organizers, activists, and public officials across the country. It strives to build interpersonal, creative, and technical skills through networking, writing to newspaper editors and politicians, and artistic compositions. PEA's chapter will work on phone banking, collaborating with local hubs, and preparing for strikes and lobbying. Political activism through Sunrise will have a particular focus on racial injustice and colonialism linked to climate change.

**SURF CLUB**

This is a group for anyone interested in surfing. We go on multiple trips per year to "The Wall" at Hampton Beach. All skill levels are welcomed and beginners are encouraged to participate. If you know, deep down, that you are a surfer at heart, you will want to be a member of this club. Boards, wetsuits, transportation, instructors, lifeguards, and pizza are all provided.

**TAIWAN SOCIETY**

**TEA CLUB**

To all our fellow tea enthusiasts, debutants, and fanatics, We invite you all to join the Exeter TEA CLUB. This is a very low-key club to just drink tea, socialize, study, listen to music, and overall to just have fun.

**THAI CLUB**

Discover interesting facts about Thailand and play fun games to learn about Thai culture. And of course, THAI FOOD! (and desserts as well!!) We welcome everyone here, even if you don't identify as Thai. Come hangout and enjoy a stress-free time together!

**THE ASIAN MAGAZINE**

The Asian Magazine is a literary and arts publication dedicated to amplifying the stories and perspectives of Asian-identifying Exonians. We publish two to three times a year and host writing workshops, discussions, and fun events.

**THE EXETER REVIEW**

The Exeter Review was born out of a feeling that although an intellectual majority may not necessarily be harmful, if many people in a group share common views then nobody is challenging and promoting tough discourse. With Exeter's values of "exacting inquiry and thoughtful discourse" in mind, The Exeter Review acts on the goal of promoting freedom of speech and diversity of thought. We publish student perspectives on the social sciences throughout the term, acting as Exeter's only nonpartisan political group on campus.

**THE EXETER ROLLS**

## **THE EXONIAN**

The Exonian is the oldest continuously-running preparatory school newspaper in America, founded in 1878. Operating as the free student press, The Exonian is not subject to prior review or censorship. Staff of The Exonian have the right to report on all topics that may be relevant, including those which may be controversial. The Exonian will not publish content that is defamatory or obscene. The Exonian is also a community, run primarily out of the newsroom in the Elizabeth Phillips Academy Center, which welcomes students from across grades. The paper publishes a weekly 10-16 page paper. The staff of the paper includes 30 editors, between 25-45 writers, associates from the other Business and Web Board, three wonderful advisers, and a significant body of contributors from across the Academy and the broader Exeter community. As previously alluded to, the paper is comprised of three main boards—the Editorial Board, the Web Board and the Business Board. The Editorial Board, comprised of section and layout editors, directs article production and print appearance. The Web Board updates the site [theexonian.net](http://theexonian.net) weekly and manages long-term endeavors. The Business Board directs all finances and outreach of The Exonian, including subscriptions and social media. Since its inception, The Exonian has published news, commentary, and content pertaining to the Exeter community. Since 2010, it has published content online.

## **THE EXONIAN BUSINESS BOARD**

The Business Board is the backbone of The Exonian, our school newspaper. We are comprised of 6 departments, Advertising, Subscriptions, Operations, Marketing, Accounting, and Outreach. As the only club on campus that generates revenue, join us for opportunities to interact with local businesses, get subscriptions from parents and alumni, distribute the paper, and more. Together we learn about running a business and support our hard-working journalists!

## **THE EXONIAN WEB BOARD**

The Exonian Web is the online component of our school newspaper, The Exonian. The Web Board is responsible not only for maintaining our website at [theexonian.net](http://theexonian.net), but also for the development of new digital projects such as the creation of a new podcast series! Web Board is a group for hardcore coders, graphic designers, artists, idea-makers, and anyone else who would like to play a role in The Exonian's online presence!

## **TRANSITIONS**

Transitions is an affinity space for women and genderqueer students who identify as Black or Latinx. We meet as a group every Sunday from 3-4pm in Club Room B. Please feel free to reach out with any questions to any our co-heads.

## **UNITE COALITION AND PUBLICATION**

We are the UNITE Publication and Coalition for Change. As a publication, we facilitate conversations on identity, race, and equity in our community by sharing the narratives and perspectives of fellow Exonians so that we may better understand each other. As a coalition, we offer an intersectional space for students of different cultures, races, religions, genders, and sexualities to gather in discussion. Our mission is to create intersectional dialogue, build empathy and awareness, spur action, and maintain accountability. We invite you to take part by joining the coalition!

## **UPCYCLING CLUB**

Upcycling Club would center around taking pieces of donated items that would have otherwise remained unused or discarded (clothing, furniture, etc.), and transforming them into new, usable items. This would allow for collaboration between the Upcycling Club and others, as the donations could be sourced from the Exeter Exchange, club members, and other members of the Exeter community. Once upcycled, these items would be donated to local thrift stores, charities, and non-profit organizations.

## **URBAN DESIGN CLUB**

This club will focus on how our communities are designed and the impact it has on our daily lives, the environment, and larger systems in our society.

## **VIETNAMESE SOCIETY**

Interested in the DELICIOUS Vietnamese food, VIBRANT culture, and the AMAZING people in Vietnamese Society? Come check us out! We do everything from gathering to cook a Vietnamese feast from scratch(or our best attempt at doing so) to just sitting down with one another and getting to know about one another's backgrounds, cultures, and stories. Regardless of whether you identify as Vietnamese or not, this is a space where you can just meet new people, create new friendships, and learn more about one another, and the Vietnamese culture! Vietnamese Society is open to ALL, so feel free to pop by anytime, we would love to meet you!

**WEVisionxPEA**

WEVision's mission is to empower women through sharing their stories and to advocate for the female narrative through creative writing, journalism, and podcasting. Be on the lookout for our magazine -- new editions are published each term! Outside of the literary realm, we also plan events that feature prominent guest speakers and introduce academic and social conferences for women to our club members. Follow our Instagram, @wevisionorg, to learn more about the work that we do to empower women in our community and beyond. WEVision welcomes all genders and all backgrounds to engage in discussions and to work hand-in-hand toward our goals. Come learn, grow, and create amazing work with the WEVision community!

**WHAT'S THE HAPS/EXETER CURRENT EVENTS CLUB**

WHAT'S THE HAPS is a relevant current news discussion-based club. Our mission is to aid the displacement of students and breaking headlines around us. We want to encourage confidence, self-empowerment, and satisfied curiosity to help students prepare for the future. The main purpose for this club is to provide a space for students to digest and process current events. This club focuses on conversations between individuals to inform Exonians through fact and impact. We will meet bi-weekly. In between meetings, you will have the opportunity to contribute to three primary teams. These consist of the writing, design, and auditory teams. The writing team is responsible for creating/editing the written content. The design team oversees our club's social media presence. The auditory produces entertaining content such as videos and podcasts. With WHAT'S THE HAPS, we hope to provide students with the necessary tools to discuss, digest, process, express, and understand news for when the time comes to make informed decisions about real world events. Hope to see you soon!

**WOMEN IN STEM AT EXETER**

Women in STEM connects female identifying students at Exeter who are passionate about STEM with alumni in STEM fields. Through guest speakers, discussions about gender inequality in STEM, and utilizing mentorship opportunities, we hope to encourage Exeter women to pursue passions and careers in STEM.

**WORD**

Word is Exeter's poetry-writing and slam poetry club. We come together weekly to explore the creative process and the written word. We will also read and discuss poetry as a group, with occasional guest poets

**WPEA**

In 1965, WPEA broadcasted its first shows throughout the town of Exeter. Nearly 60 years later, we're still making quality content produced by students, staff, and faculty. WPEA seeks DJs from every quarter and trains them to become proficient broadcasters as they share the music and stories they love with the Exeter community. A top-notch non-commercial educational radio station, WPEA aims to entertain, engage, and inform the Seacoast area and the world with unique student-run programming.

**YOUNG BROTHERS SOCIETY**
