

Phillips Exeter Academy

Student Club and Campus Organization List: 2019-2020

AR/VR Association

Augmented Reality/Virtual Reality Association provides Exeter students with the opportunity to work hands-on with VR technology. Come and create and design your own VR applications with 360 cameras and VR headsets with us! No experience in coding is necessary.

Academy Belly Dancing Society

It is the PEA traditional belly dancing team on campus.

Activism in Art

Activism in Art is a club dedicated to using different art forms to address issues that affect the people of the Exeter community and beyond. Throughout the year, the club hosts multiple events that center around relevant issues and feature student performances including spoken word, dances, and vocal or instrumental music pieces. The club also utilizes visual art in bringing awareness to the community by converting art pieces into posters that are put up around campus.

Animal Advocates Club

A club devoted to discussing and taking action in animal rights and animal agriculture issues. We have a lot of ideas, and have already accomplished a lot over the past two years, such as hosting two Veg-Fests, holding a panel on Climate Action Day, and meeting with the biology teachers to ask for a dissection policy that would allow some students to have an alternative to dissections, which they just recently passed. During our club meeting, we hold discussions, plan our ideas and events, and write letters in support of animal rights related issues.

Archery Club

Providing a collaborative and fun environment for students to practice and learn the fundamentals of archery.

ArchitExeter

Exeter's Architecture Club

Art for Mental Health

We want this club to be a way of coping with depression, anxiety and/or other mental health issues on campus by trying new art mediums and the freedom of expression through art.

Association of Communist Exonians

Come discuss capitalism, socialism, and communism over lunch. We invite capitalists, socialists, and communists of all stripes. Prominent speakers like Duke Professor Michael Hardt and Communist Party USA chairperson John Bachtell will be Skyping in to talk to us.

Astrology Club

The purpose of astrology club is to explore meanings of and interpret celestial events and astrological phenomena, as well as delve in mysticism as a whole.

Other activities include: Tarot Card readings, palmistry, dream interpretation, star gazing and meditations

Astronomy Club

We observe weekly on nights when it is clear. We will teach you how to operate the telescope, astrophotography, and we will be building a telescope by hand!

Badminton Club

We play badminton! No experience or equipment needed.

Baking Club

Baking Club meets once a week to bake cakes, cookies, breads, and seasonal treats. Swing by to help bake, play board games, and talk!

Ballroom Dance

We do ballroom dance, things like foxtrot and tango and cha cha. No dance experience necessary!

Beat of Asia

We are an Asian Dance Group, open to anyone from any dancing background! We dance to songs by groups like BTS, EXO, and more!

Beekeeping Club

If you want, learn about bees and beekeeping, both through articles and discussion and through practical inspections at our on-campus hive, then this is the club for you! Bees are an integral part of our environment, and our goal is to help the community get to know these fascinating creatures. We are also planning a field trip this fall.

Biology Club

Biology Club is a gathering of students interested in understanding the inner workings of life through the lens of biology. At our meetings, we either have a discussion, lead a lab, or meet with an outside speaker or professor to learn more about the facets of the subject that captivate us. In addition, students who are interested train for the USA Biology Olympiad during the latter part of winter term.

Black Students of Excellence

Black Students of Excellence (BSE) honors the customs and traditions of this institution while recognizing the need for a safe space. We acknowledge that positive change for black students at Exeter can only come with the understanding and sharing of our unique experience as black students on this campus. The purpose of the BSE is to be an escape from PEA's rigor and to focus on the empowerment of the black community at Exeter. We vow to be a safe, progressive space for black students at Phillips Exeter Academy.

Bob Ross Painting Club

Bob Ross Painting Club meets monthly on a Sunday. Club funds are used for a pancake brunch and club members paint along to a Bob Ross tutorial. This club is designed to create a relaxing Sunday morning environment for Exonians who may be stressed from the quick pacing of Exeter life.

Bridge Club

Play bridge, eat pizza, have fun!

Bullet Journaling Club

Bullet Journaling Club is a club that meets to work on bullet journals each week! This organizational system is used by CEOs and students across the world—you can use it too! Each week we meet and set up our spreads and experiment with new setups

Caderas

A club for students who want to learn how to dance to Latino/Hispanic music. Salsa, reggaeton, champeta, bachata, and much more. No experience necessary.

Chemistry Club

We meet every week to play with fire, liquid nitrogen, explosions, and more! Sign up to learn some chemistry and eat ice cream freshly made with some liquid nitrogen.

Chess Club

We play many variations of chess including regular chess, blitz, bughouse, and even athletic chess! Players of all skill levels are welcome.

Chinese Language Society

Chinese is known on the US department of state language scale as the hardest language to learn. Oftentimes, just language instruction is not enough to reach fluency. For dedicated and passionate Mandarin Chinese Language learners, the Chinese Language Society will supplement in-class instruction with fun and engaging competitions through written and spoken Mandarin. The Chinese Language Society will allow Chinese students and speakers alike to practice their Mandarin Chinese outside of a classroom setting and work on their public speaking skills. In addition to speaking competitions, club members are encouraged to participate in essay writing competitions.

Chinese Student Organization (CSO)

A community for Chinese or Chinese-American students and for people interested in learning about Chinese culture.

Christian Fellowship

Christian Fellowship is a club that partakes in fellowship and discussion. Dinner is provided. Come as you are!

Council for Equity and Social Justice

We work to promote inclusion and diversity at Exeter. This year, we want to create an Exeter version of Andover's Blue Book, which is a collection of writing about what it is like to be _____ at Andover.

Cryptocurrency Club

Exeter's Cryptocurrency Club provides a basis of knowledge around the evolving conversation of cryptocurrencies. Through discussion and watching videos, we are able to further our own understanding of cryptocurrencies and use that information to invest, mine, and even create our own cryptocurrency. As a club, we are low commitment and yet, high quality. We welcome anyone, regardless of prior knowledge.

Cybersecurity Club

Cybersecurity Club covers topics on network security and protecting devices from the threat of cyber threats and hazards. Anyone can take the extra step to his or her computers and systems healthy and protected. Using a computer simulation, club members will learn the strengths of vulnerabilities of the operating systems, Windows and Ubuntu and find solutions to keep hackers out.

Daniel Webster Debate Society

Learn and improve your public speaking skills, and compete at parliamentary and policy debate tournaments throughout the year.

Democracy of Sound (DOS)

An events and design collaborative bringing together creatives, technologists, activists to reimagine spaces on campus and raise critical awareness to local and global issues, artistic problematizations, cross-fertilization between students and adults, disciplines and diverse perspectives, dynamic challenging neuro-diverse activations and open questioning of held habits of mind and praxis.

Democratic Club

In our weekly meetings, we discuss current political topics, host candidate speakers, and campaign for Democratic candidates. We also bring groups to local campaign rallies and other Democratic Party events.

Design Club

Teaching the fundamentals of graphic design and taking projects from other student groups to create logos, posters, etc.

Dialogue Club

Students in Dialogue club are expected to actively engage in Harkness discussions relating to in-school issues and problems to issues pertaining to American social and political values.

Dimensions (Contemporary Dance Club)

Contemporary dance troupe. Performs at assemblies and students arts festivals

Divest Exeter

This is an environmental activist group working with the administration to remove financial support from the fossil fuel industry and reallocate the school's investments into renewable energy companies. Divest Exeter is made up of many committees. From artistic/social media workers to hardworking researchers, the committees range in expected participation, so if you are interested but do not have a lot of free time on your hands, you can still help! If you would like to learn more about finances, communication, leadership and the environment, contact club heads.

DRAMAT

Dramat is a student-run theater group.

Dumbledore's Army

A fun and relaxed Harry Potter club, in which members can bond over their love for Harry Potter through film screenings, trivia, games, and discussions. We hope to be a haven for stressed students and provide them with a low-stress activity where students can meet fellow Harry Potter fanatics.

EDDA (Exonians with disabilities or different abilities)

The purpose of the club is to have a space on campus for students with disabilities to come together and talk about shared experiences and discuss topics relative to the disabled community. Also as the club becomes larger it could be the main disability advocacy group on campus for issues such as accessibility in the dorms and the fact that most dorms are not accessible, or easiness of applying for testing accommodations on campus, or the fact that the Exeter community doesn't reflect the range of disability from cognitive disabilities to physical disabilities that is in the world as whole.

Echappe

We are a ballet club! We meet once a week for technique and to learn choreography for our performances (once a term).

Economics Club

We are a discussion-based club where we read and talk about current/past economic issues. Past topics have included Venezuelan economy, Puerto Rican debt crisis, '08 recession, and Icelandic financial crisis.

Energy Club

The Energy Club concerns science and climate change. The club will focus on researching, learning about, advocating for, and possibly developing different energy sources. We will look at the concept of energy from a scientific perspective and will look at some of the less-common sources of energy, such as those produced by nuclear fusion (which is much safer, less radioactive, and produces less nuclear waste when compared to nuclear fission). Nuclear fusion, along with other sources of energy, such as space-based solar power and artificial photosynthesis, are currently unavailable (not in mass-scale, at least) and are subject to global research. These types of uncommon but promising energy sources will be examined at a technical level using science and possibly make contact with the scientists working on these in the far future. This will be a perfect complement to activism-clubs such as Divest Exeter, and will be a valuable addition to the community of scientists, activists, and others in the climate battle.

Engineering Club

In previous years, we have built a hovercraft, potato cannons, RC planes, and catapults. We will be working on individual and group projects this year, and we have access to a laser cutter and 3D printer.

Environmental Action Committee

We host events and campaigns to help Exeter become a greener community.

Environmental Proctors

Dorm Environmental Proctors help the dorms to be greener spaces by promoting less electricity use, recycling and conducting energy audits.

Equestrian (IEA) Club

This club would ideally be the start of an equestrian program here at PEA. The club would take trips to the barn on one to two days a week and ride together in a practice. The goal of this club is to form a competitive equestrian team (IEA) that would compete next fall.

EXcycle

The club's goal is to implement a closed loop recycling/economic system on campus.

This will be accomplished by collecting and processing old Exonian newspapers through a specific method we have already developed. The new paper created from the old paper will then be sold in the bookstore and used by IA (these relations have already been established). We also hope to investigate other ways we can take recyclables and return them to a usable form

Exeter Association of Rock

Club for musicians and music enthusiasts with a focus on performance.

Exeter Blockchain Club

The Exeter Blockchain Club focuses on all things Blockchain. We will learn more about this new and emerging technology that has attracted the attention of so many companies like Facebook, Google, and Microsoft. Blockchain technology is the framework that was used to construct the Bitcoin network. Exeter BC will go into detail about how it actually works and why people are obsessing over it. We will look into the latest ideas and projects all over the world that are finding new ways to change our lives with Blockchain.

Exeter Business Club

We hold weekly meetings where we discuss business principles, invite speakers, and prepare for the FBLA State and National competitions.

Exeter Canoe Club

Members of this club will be invited on numerous off-campus trips in the warmer parts of the school year. Trips will take buses to local canoe companies to embark on day canoe trips led by the company chosen. This club provides an opportunity for PEA students to get involved with nature in a safe and stimulating environment.

Exeter Climate Lobby

Our club will inspire and empower students to lobby for meaningful climate solutions in regional government and in their own communities. We are committed to a high level of activism through a variety of mediums including lobby days, strikes, art installations, and demonstrations.

Exeter Computing Club

Want to become an entrepreneur, hacker, or tech innovator? Exeter Computing Club (ECC) has you covered! The three branches of our club - learning, project, and competition - will teach you the skills and give you the resources you need for developing the next Facebook or USACO full score solution! Everyone is welcome, no experience in coding is necessary.

Exeter Culinary Association

A great club to hone your cooking skills and enjoy delicious meals in good company!

Exeter Diplomacy Club

The EDC's purpose is to encourage meaningful conversation and thought among students about current global issues. The sole way we aim to do this is by bringing world leaders in geopolitics and foreign diplomacy to speak to the large student audience at our school. As these students will grow up to potentially become influential adults, we see it vital for them to understand the how the world functions, and their own part in shaping it.

Exeter Forensics Team

The Exeter Forensics Team will be centered on NSDA (National Speech and Debate Association) speech and debate formats, rules, and tournaments. Through the Exeter Forensics Team, we will be mainly competing in Public Forum Debate and will attend many tournaments (separate from DANEIS tournaments) throughout the year and will aim to qualify members to the NSDA Nationals Tournament, the Tournament of Champions (TOC), and the National Debate Coaches Association (NDCA) Tournament.

Exeter Investment Group

We will teach you everything you need to know to invest in the stock market. No previous experience required. Winter and spring term we will compete in Stock Market competitions.

Exeter Jewish Community

The Jewish club that meets weekly for a home cooked Shabbat dinner. We also offer religious services for those interested in observing the Jewish holidays. EJC welcomes people no matter their religious and spiritual affiliation to join in on the festivities.

Exeter Language Learning Club

Exonians opportunity to learn a new language as a club.

Exeter Launch Club powered by MIT

Become an entrepreneur! We will help you create your own business, with the chance to compete at MIT! With training and resources from MIT Launch about marketing, finance, pricing, and more, we will teach you the fundamentals of entrepreneurship! No experience is required.

Exeter Mental Wellness Group

We are a peer support group for Exonians who may be struggling with mental illness, mental wellness, or just need someone to talk to.

Exeter Movie Club

The purpose of the club would be to screen movies in the forum once a month on Saturday nights.

Exeter Off-Planet Society

We believe that humanity is on the cusp of one of the greatest leaps in history: exploiting the off-Earth realm. The potential for human expansion, scientific advance, new business opportunities, and other yet-unknown avenues is huge. This revolution is being led by companies in the private sector. Our mission is to introduce, educate, and inspire our generation to take full advantage of this revolution. If you like rockets, business, space, or Elon Musk, you will love the Exeter Off-Planet Society.

Exeter Party Game Alliance

The purpose is to bring together all students interested in various party club games, as well as educate them with various strategies on approaching the games. Many strategies could be mathematical, using probability or logic; these will be emphasized during the game. However, the purpose is also to have fun and play the well-known and loved party games such as Werewolf/Mafia, Spyfall, Truth or Dare, and many other games.

Exeter Pinoy Society

Pinoy Society is mainly a support group for Filipino students. However, it is open to all students; many of our members (and even one of our founders) are non-Filipino! We meet for dinner weekly to talk about everything under the sun (especially the Filipino sun). We also make food, such as halo-halo, a dessert, which translates from Tagalog to English as "mix mix."

Exeter Pipe Band

To practice, learn, and perform highland music together!

Exeter Political Union

Exeter Political Union is Exeter's bipartisan political organization. We collaborate with other political organizations and host events throughout the year.

Exeter Rescue Team

Rescue Teams are groups affiliated with the nonprofit organization Liberty in North Korea (<http://www.libertyinnorthkorea.org/rescue-teams/>). The purpose of a Rescue Team is to raise community awareness about the humanitarian crisis in North Korea, especially the issues surrounding those who escape and the dangers of repatriation both for the escaped peoples and their families. Rescue

Teams, along with educating the community, also participate in fundraising for LiNK. 100% of the funds sent to LiNK are used to rescue escaped North Koreans. The Exeter Rescue Team will hopefully bring in a speaker, as well.

Exeter Super Smash Organization

This club would be around the popular Super Smash Bros. cartoon fighting game franchise by Nintendo (https://en.wikipedia.org/wiki/Super_Smash_Bros. https://www.smashbros.com/en_US/). The club would meet on a weekly basis, require essentially zero commitment, and would simply exist as a space for students to come and enjoy casually playing Super Smash Bros at their leisure. For more competitively inclined students, the club would also feature organized tournaments, though they would be not too frequent.

Exeter Tabletop Club

The main purpose of the club would be to serve as a place for students to meet up and play various tabletop games, ranging from things like board and card games to role playing games such as Dungeons & Dragons. In addition, it would be a place for Exonians to release some stress through gaming and socialize with their peers in a casual environment.

Exeter Unites

The mission of Exeter Unites is to bring together students of all religious, political, racial and ethnic backgrounds to improve understanding and appreciation for what unites us rather than divides us. Exeter Unites will offer an alternative to the anger and division that often occurs between diverse groups of people and divergent opinions on the most sensitive topics. We will strive to break down tension and disrespect within the Exeter community and encourage students to appreciate those who are different from themselves as being vital to rich discussion and learning. We will accomplish this through three main campus-wide thematic events each year, one in each trimester, and a new system of open houses where people will be encouraged to visit and participate in clubs that represent a different background or view than their own. We would actively engage representatives from various clubs on campus to plan and prepare for these events and help transform the Exeter community.

We will collaborate with Global Unites, a non-governmental organization that works to unite communities around the world which are suffering from conflict and division. Exeter Unites will be the first club of its kind to be established at a boarding school in the United States. The future hope is that Exeter Unites can model a program that will spread to other secondary schools and colleges throughout the country.

Exeter Vocal Jazz Ensemble

The Exeter Vocal Jazz Ensemble would rehearse twice a week and perform jazz repertoire, whether a cappella or with instrumentalists. The exclusively jazz music offers vocalists an opportunity to explore a unique genre, one that is not currently promoted by the Music Department. Potentially, workshops will be held on scat-singing.

If the group is of a performance-ready caliber, it may enter competitions conferences, and festivals at the regional and national level. The ensemble may also put on performances at school events and Evening Prayer.

Exeter Wood Shop

Exeter Shop Club is for students who want to get their hands dirty. Throughout the year, we will show you how to use a variety of power tools and teach you the essential woodworking skills through different projects. No experience required.

Our main project will be designing and constructing derby cars that we will race at an organized event on campus. Throughout the process, you will learn building techniques and gain experience in a shop environment.

Exonian Encounter

The mission of the Exonian Encounter Committee is to establish and sustain community events that encourage all of us to embrace our differences, challenge our preconceptions, and foster connections with others in a respectful environment.

Exonians Against Drugs and Alcohol (EADA)

Exonians Against Drugs and Alcohol will function to help students understand more about drug abuse on campus. First, through campus-wide projects, we would like to promote Exeter's drug-free policies by highlighting the risks of abusing common drugs like marijuana and nicotine. Second, we would like to educate students on outlets they can turn to in case they find themselves following a destructive path. In essence, we want to improve the lives of all Exonians by encouraging a drug and alcohol free campus.

Exonians Against Sexual Assault

Works with faculty, administration, and students to foster positive social change on campus regarding issues like sexual assault and harassment, among others.

Feminist Union

The Feminist Union (AKA Fem Club) hosts weekly discussions, and periodic events such as panels and movie nights. We welcome everyone who is interested in learning more about feminism to join us!

Finis Origine Pendet

The group would be for low-income students on campus. Through weekly meetings we'd make time to talk about the resources available to students here on campus through financial aid, navigating social situations that arise from being a low-income student at Exeter, talk about tips on saving money and living in a prep school environment, and share our experiences with each other.

Folklore Club

We'll be discussing and telling folklore, mythology, and fairytales from different cultures and time periods. Do you want to learn about Koschei the Deathless to impress your Russian teacher? Do you want to revive the dead creepypasta forums? Do you want to eat the snacks that we have promised to provide? If you answered yes (or no) to any of these questions, feel free to join us.

Food Waste Reduction Club

Food Waste Reduction (FWR) Club is a club dedicated to reducing food waste on our campus by raising awareness about it through posters, food waste audits, and school announcements. We work with the

dining hall staff, school administration, and other environmental clubs. Sign up if you are looking to be more involved on campus and help the environment!

Foreign Exchange (ForEx)

At ForEx, we discuss global and alternative currency markets. We engage in activities involving analyzing markets and trading currencies as well.

Gender and Sexuality Alliance

Gender and Sexuality Alliance (GSA) is club that talks about anything regarding the LGBTQIA+ Community. GSA is open to everyone.

Geography Club

This club will discuss interesting topics related to geography and have geography trivia quizzes. We also hope to send members to interscholastic geography competitions and organize a school-wide geography bee.

German Club

A group that meets for events that pertain to German culture. We suggest that people join this club whether they take the language or not. We have events where we offer cultural foods, and speak both English and German.

Girls in STEM

Girls in STEM promotes and encourages the participation of the girls in the community through projects and discussions.

Go Club

A club where play Go, the board game.

Healthy Futures

Healthy Future is a club that raises awareness about nutrition in rural areas in developing countries.

History Club

History Club meets weekly for lectures and discussions on a diverse of array of historical topics, and participates regularly in regional and national tournaments of the National History Bee and Bowl, and in the annual National History Day competition.

Hydroponics Club

The purpose of Hydroponics Club is to grow a variety of plants, mostly fruits, vegetables, and herbs, for the Exeter community to enjoy. Our activities will be based around designing, building, and maintaining a complete hydroponic growing system.

Imani

Co-ed, hip-hop dance team.

Impact

This would be a club dedicated to climate change and raising awareness about how it affects people throughout the world. We would touch on issues such as pets and animals left behind in natural disasters, the way climate change affects people in poverty around the world, the laws and initiatives introduced surrounding climate change etc. We would also like to translate this into action with fundraisers, petitions, connections with organizations doing this work, etc.

In Motion

A co-ed hip-hop dance group, which aims to perform three times a year and try many types of choreography within the hip-hop genre.

Interfaith Conversation Club

Discussion of religion on campus and around the world.

International Student Alliance

Any student with an international experience is welcome to join! We meet weekly to discuss issues through an international lens, plan events such as the International Festival and support each other!

Japanese American Society

A club for students of Japanese heritage or students interested in Japanese culture. We meet weekly for dinner, snacks, and good company. We also go out to eat or cook Japanese food a couple times a term.

Kirtland Society (Latin Club)

Kirtland Society incorporates all parts of the Classics, including Roman and Greek history, mythology, culture, language, and literature. In our meetings, we might watch Hercules and Ben-Hur or play Classics games or a fun round of Certamen. We train for our three major Certamen competitions at Harvard, Yale, and Boston Latin School.

Liber

Liber is a student-run online publication which aims to bring the languages, literature, culture, and history of classical antiquity within the reach of Exonians and beyond. Liber is published twice a year in the spring and fall at liberexeter.com.

Linguistics Society

We chat about the disciplines of linguistics, the scientific study of languages. No prior knowledge needed! If you have ever been interested in grammar, or why different people talk differently, or creating your own language, this is the club for you.

Lionettes

Female jazz/commercial dance team. Performs 5 times/ year at assemblies and pep rallies. Audition only.

Magic: The Gathering Club

The purpose of this club is to meet weekly to play the card game Magic: The Gathering and discuss strategy. We intend to go to local tournaments and bring together players on the Exeter campus by hosting our own.

Makers of Exeter

Makers of Exeter is a society of designers, thinkers, and, well, makers that seeks to use cutting edge technologies in combination with design thinking to solve problems and improve life for others at the Academy and beyond. Not only will the Makers of Exeter provide opportunities for learning and collaborative Harkness-style making, but also generate art pieces that express the wide diversity of the Exonian community. Makers of Exeter will also collaborate with other clubs and organizations to design props and costumes using the innovative new technologies available in the MakerLab. We also hope to promote creative thinking and usage of the MakerLab through forming a supportive network for lab users. This will allow students without experience to be introduced to the lab by their peers, and experienced students to brainstorm, receive help, and find partners for their projects.

Math Club

We meet to solve cool math problems! If you are interested in growing as a mathematical problem solver or you want to learn more about the beauty of math outside the classroom, then we can find a place for you (you do not have to be good at math or in a high level at all).

MATTER Magazine

MATTER is Exeter's sole science-focused publication. We're dedicated to making science and STEM accessible and relevant for the Exeter community.

Meat Eaters Club

Our goal of this club is to provide students with the atmosphere and the resources to cook meat, eat meat, and do everything meat related.

Middle Eastern Society

For middle-eastern and non-middle-eastern students alike to discuss middle-eastern politics and history, learn about middle-eastern language and culture, and enjoy music, dancing, and cuisine.

Mock Trial

In Mock Trial, you will learn how to build and argue a case, the principles of case law, the rules of evidence, and you will gain valuable public speaking and "on-your-feet-thinking" experience. Join today to be a member of one of our three, highly competitive teams.

Model UN

Represent different countries, discuss global issues, and learn more about international relations.

Multi-Racial Exonian Society

A discussion-based club that focuses on issues surrounding multi-racial people.

Muslim Student Association

Here at Phillips Exeter Academy our MSA provides education on Islam while giving our students a sense of community and safe space for religious services.

Mythology Club

We talk about different mythological pantheons and their related stories. We want to apply to a few different national mythology tests/competitions.

Opera Club

At Opera Club, we go to The Music Hall in Portsmouth and watch operas streamed from The Metropolitan Opera House.

Origami

We make origami and explore the intersections of origami and mathematics, science, and real life applications. At the end of the school year, we collaborate with the Lamont Gallery to create a pop-up exhibit.

Outkast

All male step team.

PEAN

We are PEA's Yearbook club. We take photos, make pages, and edit the book to produce a 350+ page yearbook by the end of the year. No experience in photography or photo-editing necessary!

Peer Tutoring

We meet every weeknight in order to help our fellow students.

Pendulum

Pendulum is the art and literary journal at Exeter. We feature writing and artwork from Exonians and publish two times a year.

Permaculture Club

The club hopes to educate students about permaculture gardens, exploring why they are important to the future of sustainable farming, and how permaculture could prove the solution to the inevitable food crisis for our planet's exponentially increasing population. The club hopes to work with the school in the development and implementation of a permaculture garden on campus grounds, so students eventually will have the ability to experience cultivating their own permaculture garden. We hope to do work with other environmental clubs, especially on a composing campaign for the garden; with the beekeeping club, so our garden and their bees can benefit from pollination; and perhaps even cooking club, once the garden starts to produce food.

Phillips Exeter Legal Society

Our club would focus instruction and discussion on the fundamentals of legal procedure and the concepts of law. For the beginning half of the year, our club would host a lecture series, from the co-

heads and hopefully from some Exeter affiliated adults with legal history who could share their experiences with our club. The series would mostly be there to introduce members to how the law works, starting from constitutional law and moving towards civil procedure towards the end, as opposed to criminal law which is what Mock Trial mainly involves. By the end of the year, we hope to host maybe a Moot Court (like a mock trial, but at an appellate level), and a publication (either a law review, or something similar to SCOTUSblog).

Philosophy Club

Have you ever wondered the meaning of life? Are you interested in finding the inherent connection among vastly different subjects? Do you want to figure out the philosophical rules behind the seemingly complicated events happening every day in our life? We will be having discussions on both classic and trendy topics; sharing and discussing books related to philosophy of your choice; and attending the annual HYPE (Hosting Young Philosophy Enthusiasts) meeting in UNH, joining challenging Socratic discussions with peers from other schools in the state.

Photography Club

A way to get out and take photos with other photographers and models

Physics Club

We meet weekly to talk about fascinating physics phenomena, from relativity to the humble tippe top! There are also opportunities outside of regular meetings to participate in competitions like $F=ma$ and the research-style USA Young Physicists Tournament.

Ping Pong Club

Ping Pong Club welcomes players of all skill levels. Come to meetings to have fun, eat Chinese food, or improve your game.

Poker and Game Theory Club

Members would enjoy the passionate and delightful game of poker in groups, while learning the basics of game theory to think about the game in a more mathematical and structured way, which hopefully will improve their skills.

Poms

Poms is Exeter's cheerleading and dance group. We perform in uniform during pep rallies and various sporting events.

Powerlifting Club

This club is mainly focused on competitive weightlifting. Participants in this club will work to become stronger in the squat, deadlift, and bench press through workouts designed specifically for heavy lifts. We will travel to 2-3 meets and compete as individuals. This club promotes general wellness through health and teaches the rewards of consistent effort.

PRECISION

All female step team.

Psychology Club

We meet to plan psychology-related events, discussions, and speakers on campus and occasionally discuss any psychology topic of your choice! We also plan to watch movies, participate in online research, and maybe do our own experiments. Join us if you have any interest in Psychology, and want to learn more and have fun!

Puzzle Club

We solve puzzles (word puzzles, code puzzles, etc.) and occasionally go to puzzle hunts.

Random Acts of Kindness

The Random Acts of Kindness Club will host weekly or biweekly meetings, most of which will be dedicated to planning sporadic surprises for students, faculty, or staff. This includes but is not limited to gift bags, hand-written notes, candy, baked goods, home-cooked items, and cards.

As well, the club will have a targeted marketing campaign that reminds students of the importance of simple acts—even opening a door will go a long way. The students involved with the club will be tasked with specific acts of kindness, such as giving someone a compliment that will rotate weekly. The campaigns will focus additionally on dorm connections, emphasizing the existing bonds between students.

Reel Life Productions

As PEA's film club, Reel Life Productions give students a platform to become creative participants in digital media rather than passive consumers of it. There is a place for everyone, whether it is scriptwriting, storyboarding, studio & location production shooting, special effects, or editing.

Rock Climbing Club

Go to rock climbing MetroRock in Newburyport, MA.

Russian Club

Learn about Russian history and culture and enjoy Russian snacks.

Science Bowl

Science Bowl meets every week to practice questions in Physics, Chemistry, Biology, Math, Earth and Space, and Energy. We compete at regionals in the spring.

Science Olympiad

We're a club focused on preparing and competing in the competition Science Olympiad. The competition includes event like Herpetology, Chemistry Lab, and Mission Possible.

Shakti

Shakti is a fun Bollywood dance group on campus! We are here to express the culture of India through our dance and incorporate a few American twists to it. No dance experience is necessary. We perform at the dance assembly and it is very casual and exciting! Come join us at the Goel Theater and Dance Center!

Ski Club

We provide transportation and discounts to help get skiers and boarders on the slopes! A club for anyone who wants to ski! Ranging from beginners to experts, we take day trips to local mountains and have a lot of fun! No need to own your own skis.

Social Innovative Thinking for Entrepreneurs

This club aims to engage students in innovative and mission-driven business leadership by connecting Exonians with Exeter alumni leaders and practitioners in the field of social enterprise.

Spring Street Society

The Spring Street Society's meetings will be solely to share and enjoy music. One member every week will present an artist or an album to the club. This member will talk to the club about the history, cultural impact, and why they like the music. This will be interspersed with listening to the artist or album. The club will be a place for students to come together, enjoy music, and relax.

Stand-Up Comedy

The objective of the club is to bring together students who are interested in stand-up comedy. This includes those who want to write material, who want to perform stand-up comedy, who want to help with production, and of course, those who just want a good laugh. We also plan to have a performance, open to all students, once a month. However, the club itself will meet once a week.

Student Council

Student Council is the voice of the students on campus and works to make changes and organize events for the student body.

Students Demand Action

Students Demand Action is a student group that fosters student activism for gun safety, control, and education in the country. Students involved in the group would have the opportunity to become educated about gun violence in America, participate in providing education to the community, and going to peaceful demonstrations.

Students Ending Slavery

The club hopes to contribute to the eradication of modern-day slavery. We hope to raise awareness of the issue of modern-day slavery and explore how we, as individuals within a global community, can reduce demand for the labor of exploited peoples around the world. We also hope to eventually host fundraising events, so we can support organizations which work to liberate enslaved people and to end modern-day slavery. The club hopes to be associated as a student chapter of the NGO Free the Slaves.

Students of Caribbean Ancestry (SOCA)

The purpose of this club is to be able to build a community with a group of people who have very similar cultures and traditions. This club is also meant to be a support system and safe space for those who want to share about experiences they have had inside and outside of the school because of their Caribbean ancestry. Some activities that will be done are bringing in cultural food, sharing the history of countries, and etc.

Subcontinent Society

Affinity Group for South Asians to socialize and participate in fun cultural activities (Food, Bollywood, Cricket, etc.).

Sustain Environmental Magazine

We know a lot of people on campus are interested in the environment and sustainability, but the students are unaware of what is currently being done by clubs and the administration to address these topics. We have heard people claim that nothing is being done and that the school needs environmental clubs. What they don't know, is that we have around 10 clubs which fall under the sustainability category and that all of these clubs are taking initiatives to make our campus more environmentally friendly. We therefore came up with the idea of a magazine that would highlight everything the different clubs on campus are doing for the environment and get students, faculty and facilities to write articles on their perspectives on sustainability.

This magazine will have an organized meeting time once a week. During these times we will be able to check in with our contributors and the members of the club to talk about the articles that can be produced, distribute these pieces and have a discussion about current environmental events. Sustain would be produced and published once a term, as a culmination of our work covering the state of our modern environment.

Tea Club

A social group that meets and drinks tea.

TEDx Club

The purpose of the club is to help students improve on their public speaking through watching TED talks and practicing giving a speech. The club also hopes to become an official partner of TEDx, so that we can hold a public wide TEDx conference every term. We will invite both student speakers and other invited speakers to give their speeches at the conference. By having this event, we hope to encourage more diverse ideas to be shared not only within our PEA community but also, to people from other communities. These speeches will be videoed and uploaded on to official TED talk website so that more people from every part of the world can watch and gain insights on the different perspectives presented.

Thai Club

This club's purpose is to spread and engage in Thai culture on campus. The club will provide Thai Exonians the opportunity to gather together, speak in Thai, and have fun. However, this club will also be open to non-Thai members who want to learn about Thai culture, eat some Thai food, watch Thai films, and maybe even learn the Thai language!

The Exeter Review

The Exeter Review would be producing a monthly magazine/newsletter with the goal of providing a conservative viewpoint on matters pertaining to PEA to help students discuss our school with a broader scope. We will also hold weekly meetings, where anyone can come and discuss the various merits and demerits of different political ideologies.

The Exonian

Student newspaper.

The Phillips Exeter Asian

Publication focused on sharing Asian stories and experiences.

Tour Guides

Tour Guides at Exeter work with the Admissions office to give campus tours to prospective students throughout the year. New tour guides receive training during fall term. Students may sign up for as many or as few tours as they would like! You choose your own level of commitment and your own schedule.

VERTEX Robotics Club

We build robots. This year we plan to build underwater ROVs and do projects with Arduino kits.

Vietnamese Club

This would begin as a very casual club, meeting maybe once a month to gather. We would talk about the culture, learn about one another, eat Vietnamese food, get to ask each other questions, and bond together as one of the lesser abundant student ethnic groups on campus.

WPEA 90.5 FM

WPEA is the academy's student run, fully functioning radio station! We broadcast live around the Exeter vicinity through FM radio and to the larger world online for 24 hours every day.

West African Dance and Expression

WADE would be involved in dance assemblies and the hip-hop showcase. We would want to educate people on the wide variety of dance culture in West Africa and its influences in hip-hop and pop culture today.

WEVision x PEA

WEVision is an organization dedicated to the empowerment of women. Club activities include writing articles about successful women in a variety of fields, website design, and spreading our message/updates on our Instagram account. More specifically, writers utilize their personal connections to contact and interview women in their respective industries. Interviews are subsequently transcribed, edited for clarity, and published on our website.

In addition, WEVision hopes to incorporate a larger range of artistic media (such as dancing/singing/etc.) to post. The club will likely collaborate with women's empowerment clubs on campus, as well as business and stem organizations. We plan to expand WEVision to other prep schools to acquire a diversity of perspectives and ideas. Therefore, Phillips Exeter will be one chapter of a larger movement. Currently, WEVision also has many chapters in other countries such as China, Singapore, Brazil and etc.

White Anti-Racist Alliance

The White Anti-Racist Alliance is an Office of Multicultural Affairs sponsored affinity group for self-identifying white students to work explicitly and intentionally on understanding and exploring their white identity as means of decoding white privilege, and to learn how they fit into a multicultural society.

WOKE

Woke is a club looking to educate people of all affinities to the stories and history of women of color. Everyone is welcome! We have active discussions, we listen to music, and we watch movies.

Word!

We're a slam poetry club that publishes a poetry magazine at the end of the year. We meet weekly to watch movies, write poetry, and hang out. We'll be hosting a poetry slam this year.

Young Democratic Socialist Club

From discussing the ideology of democratic socialism to campaigning for democratic socialists, such as Presidential candidate Bernie Sanders, our club seeks to allow students to take an active part in educating others about democratic socialism.

Young Female Entrepreneurs

Young Female Entrepreneurs (YFE) at Exeter promotes bold business leadership in young women, in a field where females are traditionally underrepresented. By encouraging innovative and iconoclastic thinking, YFE hopes to cultivate entrepreneurship and focus on gender equality. The club is open to all students, regardless of gender. Since this may be the first experience with entrepreneurship for many club members, YFE activities will include weekly presentations, discussion meetings, and even speaking sessions from prominent female entrepreneurs. Other activities include participation in business competitions and publication of a monthly blog with contributions from club members.
